Subject Fw: Roof Damage to Electrical Ancillary Building - Aerovox;

Scott - see Moe's email and pictures below: the roof to the small electrical building (on the left as one drives in Hadley St) suffered some visible roof damage during this last storm. For all we know the building is still electrically energized.

Can you get a city crew mobilized for a quick repair?

Thanks - Dave

Guys,
I took a few pictures; you can see where the roof has peeled back.
Thanks-Josh

David,

Could you forward along this FYI to Scott Alphonse that this
week's
storm has damaged the integrity of the roof over what we think is a powered
(we think)electrical switch gear/transformer building at the Aerovox
Facility.

Scott can call me if he needs more details; 1-978-318-8223;

Thank you,

Moe Beaudoin
